

WORK PLAN 2021/2022

Vision Boarding

The participants gave their view on how malaria free Kenya could look like come by 2030.

Below are the responses;

- Communities will be more involved in care participation
- Members will be adhering to 3Ts initiative
- There will be reduced mortality rates leading to a longer life span
- Improved social amenities and other activities since the malaria resources will be funded elsewhere.
- There will be more travels hence increasing foreign investments
- Mosquito bites will not bother people
- There will be more responsible communities- uptake of commodities in a responsible way.
- Citizens will not be worried of malaria at the borders
- There will be reduced/ zero malaria treatments
- Time lost in malaria treatments will be used in other issues

Members were divided into three (3) groups to discuss on the activities they could do and their respective outputs under the subtopics that were presented by the CSOs as interventions/innovations strategies for malaria.

AGENDA SETTING

The CSOs crafted a three-point agenda for the year 2021.

1. **Advocacy.** This entails coalition building and social accountability a key agenda is to push for access of commodities by Community Health Volunteers (CHVs) at community level. Main activity is advocacy around the court case that stopped CHVs from carrying out community malaria testing.

2. **Quality of care.** To advocate for improved quality of care by providing evidence-based messages on the need for quality of care.
3. **Artificial Intelligence.** Advocacy for the Adoption of artificial intelligence in Health Management Information systems (HMIS).

QUALITY OF CARE, RESEARCH AND DATA

OBJECTIVE	ACTIVITY	Expected Result	Responsible	JULY-S EPT	OCTO- DEC	JAN- MARCH	APRIL- JUNE
Create awareness among pregnant mothers on malaria prevention by June 2022	<ul style="list-style-type: none"> Sensitize pregnant mothers on malaria prevention and care Conduct community dialogue forums Develop and disseminate IEC materials 	<ul style="list-style-type: none"> Pregnant women sensitized A number of dialogue forums held A number of people reached through IEC materials 	Impact Malaria, Red Cross, African Family Health, We Reach, Smile Africa	x	x	x	X
Improve prompt health seeking behavior	<ul style="list-style-type: none"> Conduct male involving awareness campaigns Conduct monthly outreaches Support sustainable IGAs 	<ul style="list-style-type: none"> Increased uptake of services Number of outreaches conducted Number of families having IGAs. 		x	x	x	X
To advocate for improved quality of care	<ul style="list-style-type: none"> Collaborate with other stakeholders Provide evidence based messages on the need to improve health services. 	<ul style="list-style-type: none"> Numbers of stakeholders advocating for improved quality of services Number of facilities offering quality services 		x	x	x	X
