## Achievements

- Implementation of the TB strategic initiatives, including KIC-TB, PPM, P4P.
- Revision of the implementation strategy for AGYW interventions based on lessons as per pilot phase.
- Development of an oversight and implementation plan for improved timely identification and management of expiries at the central and facilities level
- Design of an appropriate framework which takes into consideration different options for implementing GF grants in a devolved setting, in line with GF guidelines.
- Development of guidelines for timely selection of SRs at the start of new implementation periods with a view to ensuring uninterrupted program continuity.

# Lessons Learnt

- Early engagement of SRs is key to timely implementation and optimal grant performance.
- RSSH –Need for follow up meetings
- Concept notes for special projects should be developed prior to commencement of grant implementation to ensure adequate implementation time.
- Health education for MDR patients on the timelines of social support (cash transfer and NHIF) to avoid disappointment once the support is withdrawn on treatment completion.
- Proper preparation to respond to emergencies to avoid serious effect on planned activities (COVID -19)
- Incentivization is key in promoting uptake of TB services among the private providers

# Lessons Learnt

- Chemists and small private clinics can be instrumental in provision of TB services if provided with the right tools, information and support
