

# HIV Truckers' Typology

Typology	Intervention	Opportunities Identified	Activities To Scale Up
	Condom and Lubricant Programming	Existing Wellness centres for Truckers (HCHRC Highway-Truckers Union; North Star)	Scale-up condoms/lubricants promotion and distribution at these WCs.
	Pre-exposure Prophylaxis (PrEP) Programming	Existing PEs and PrEP Champions	<ul style="list-style-type: none"> <li>• Increase the number of trained PEs and PrEP Champions</li> <li>• Optimally utilize the expertise of the existing PEs and PrEP Champions</li> </ul>
	HIV Prevention Communication, Information and Demand Creation	<ul style="list-style-type: none"> <li>• Existing pool of trained PEs</li> <li>• Existing Truckers trade union</li> </ul>	<ul style="list-style-type: none"> <li>• Engage existing PEs</li> <li>• Increase the number of PEs</li> <li>• Support Truckers trade union</li> </ul>
	Community Empowerment	<ul style="list-style-type: none"> <li>• Existing truckers communities led organizations</li> <li>• Existing truckers' bodies</li> <li>• Existing other stakeholders for truckers</li> <li>• Existing truckers implementing truckers IP</li> </ul>	<ul style="list-style-type: none"> <li>• Conduct multi-stakeholders engagement of the existing players</li> <li>• Strengthen national coordination bodies for truckers</li> </ul>
	Sexual and Reproductive Health Services, including STIs, Hepatitis, Post-Violence Care	Existing avenues (Wellness)	Accelerate STIs and RH services at the RWCs
	Removing Human Rights-related Barriers to Prevention	<ul style="list-style-type: none"> <li>• Existing truckers' union (Long Distance Truckers)</li> <li>• Existing pro-bono lawyers</li> </ul>	<ul style="list-style-type: none"> <li>• Utilize the unions legal channels for access to justice</li> <li>• Increase the number of pro-bono</li> </ul>

# HIV Truckers' Gaps

Typology	Intervention	Gaps Identified	Priority Intervention	Activities To Address the Gaps
	Condom and Lubricant Programming	Inadequate supply of condoms among Truckers	Scale-up distribution of condoms and lubricants along transport corridors and hotspots	<ul style="list-style-type: none"> <li>• Conduct condom/lubricants education among Truckers</li> <li>• Conduct condom/lubricants promotion, demonstration and distribution</li> <li>• Support peer to peer promotion and distribution of condoms/lubricants</li> <li>• Procure condom dispensers</li> <li>• Map new truck stops</li> </ul>
	Pre-exposure Prophylaxis (PrEP) Programming	Low uptake of PrEP among Truckers		<ul style="list-style-type: none"> <li>• Provide information to create demand for PrEP</li> <li>• Support peer-led adherence support for Truckers</li> <li>• Diversify PrEP delivery points</li> <li>• Empower PrEP Champions</li> </ul>
	HIV Prevention Communication, Information and Demand Creation	Inadequate HIV prevention communication and information		<ul style="list-style-type: none"> <li>• Develop and disseminate IEC materials</li> <li>• Develop audio and internet based such as social media</li> <li>• Conduct venue based outreaches</li> <li>• Use SMS to share information</li> <li>• Truckers' specific IEC innovative activities</li> </ul>
	Community	Inadequate involvement	Meaningful engagement of	<ul style="list-style-type: none"> <li>• Develop a Strategic Plan for</li> </ul>

# Malaria Truckers Gaps'

Typology	Intervention	Gaps Identified	Activities To Scale Up
Truckers	Insecticide Treated Nets (Mass Campaigns)	Inadequate availability of nets and proper use of nets among truckers	IEC materials related to mass campaigns and equitable access.  Engage the truckers community in the vector control campaigns
	Insecticide Treated Nets continuous distribution (Community Based)	Insufficient truckers community engagement in distribution of nets.	<ul style="list-style-type: none"> <li>Engage truckers led organizations and communities in distribution of nets.</li> <li>Communication/behavior change activities.</li> <li>Monitoring and reporting of routine operations.</li> </ul>
	Other vector control	<ul style="list-style-type: none"> <li>Limited vector control measures</li> </ul>	<ul style="list-style-type: none"> <li>Activities to empower and engage communities in vector control such as spraying of trucks yards</li> </ul>

# TB Truckers' Gaps

Typology	Intervention	Gaps Identified	Priority Intervention	Activities To Address the Gaps
	TB Screening and Diagnosis	Limited TB screening and diagnosis among the truckers		<ul style="list-style-type: none"> <li>• Conduct awareness campaigns on TB symptoms</li> <li>• Capacity build the health service providers and PEs at WCs on TB screening using ACF.</li> <li>• Support motor riders to transport sputum samples from spokes to the hubs</li> <li>• Training of health care providers and PEs on sputum collection.</li> <li>• Conduct outreaches targeting hotspots most likely to have TB.</li> </ul>
	TB Treatment, Care and Support	Low adherence to TB medication especially among male truckers		<ul style="list-style-type: none"> <li>• Support TB treatment adherence for TB medication</li> <li>• Linkage of presumptive clients to health facilities for further management</li> </ul>
	Screening/ Testing for TB Infection			<ul style="list-style-type: none"> <li>• Conduct active TB case finding through screening contacts of TB patients by PEs</li> <li>• Conduct TB treatment defaulters' follow-up and tracing and return to treatment by PEs.</li> <li>• Support tracing of treatment interrupters</li> </ul>
